# **Accepting Rental Assistance or Vouchers**

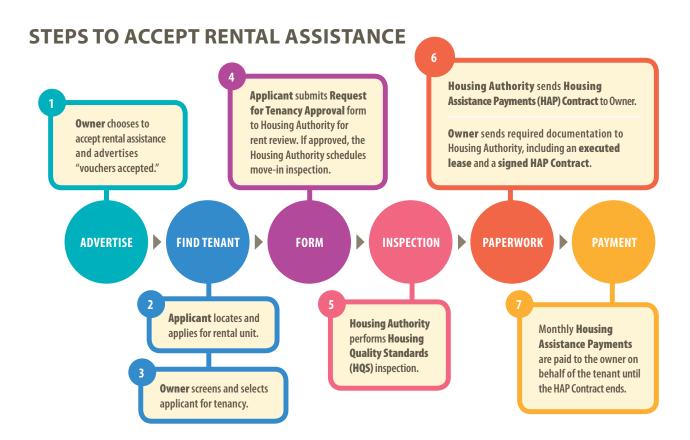

#### What is rental assistance?

Rental assistance, like Housing Choice Vouchers (Section 8), makes homes like yours affordable to people with limited incomes.

It is a partnership between landlords, tenants, and a Housing Authority. Landlords are critical to maintaining and increasing affordable housing options in our community. We hope to welcome you as a partner soon!

### **Landlord Benefits**

- Timely, guaranteed rent payments. In 2019, the average per-unit rent assistance payment to partner landlords was \$865/month (\$10,377 per year).
- Reduced turnover and vacancy costs. Twin Cities voucher-holders average 7 years since move-in. SEVEN YEARS!
- **Responsible tenants.** Rental assistance is scarce. After waiting years for the assistance, voucher-holders are motivated to care for their apartment and follow lease terms, or they risk losing their assistance and their home.
- A problem solving partner. Our staff is trained to support tenants and to remind tenants of their lease obligations, so their problems don't become your problems.
- · Satisfaction from helping others.

# How do I pre-apply or get involved in a voucher program?

There is no pre-approval or certification process. Simply advertise using the phrase "Vouchers Accepted." Landlords can advertise for free with HousingLink (housinglink.org).

# What happens when I decide to accept a tenant who has a voucher?

Renting to someone with a voucher is similar to renting to a family who does not have assistance. There are several programs, and they all work in a similar way. This flyer references forms and standards for the most common program.

# What are the ongoing requirements to accept rental assistance?

#### 2 simple steps:

- Let us know of any proposed changes in the rent agreement, lease terms, or lease violations.
- Provide housing that meets HQS Inspection Standards. Inspection occurs at initial move-in and annually or biennially, landlords only need to attend the initial inspection.
